Electronic- &
Software Development

Production &
Additive Manufacturing

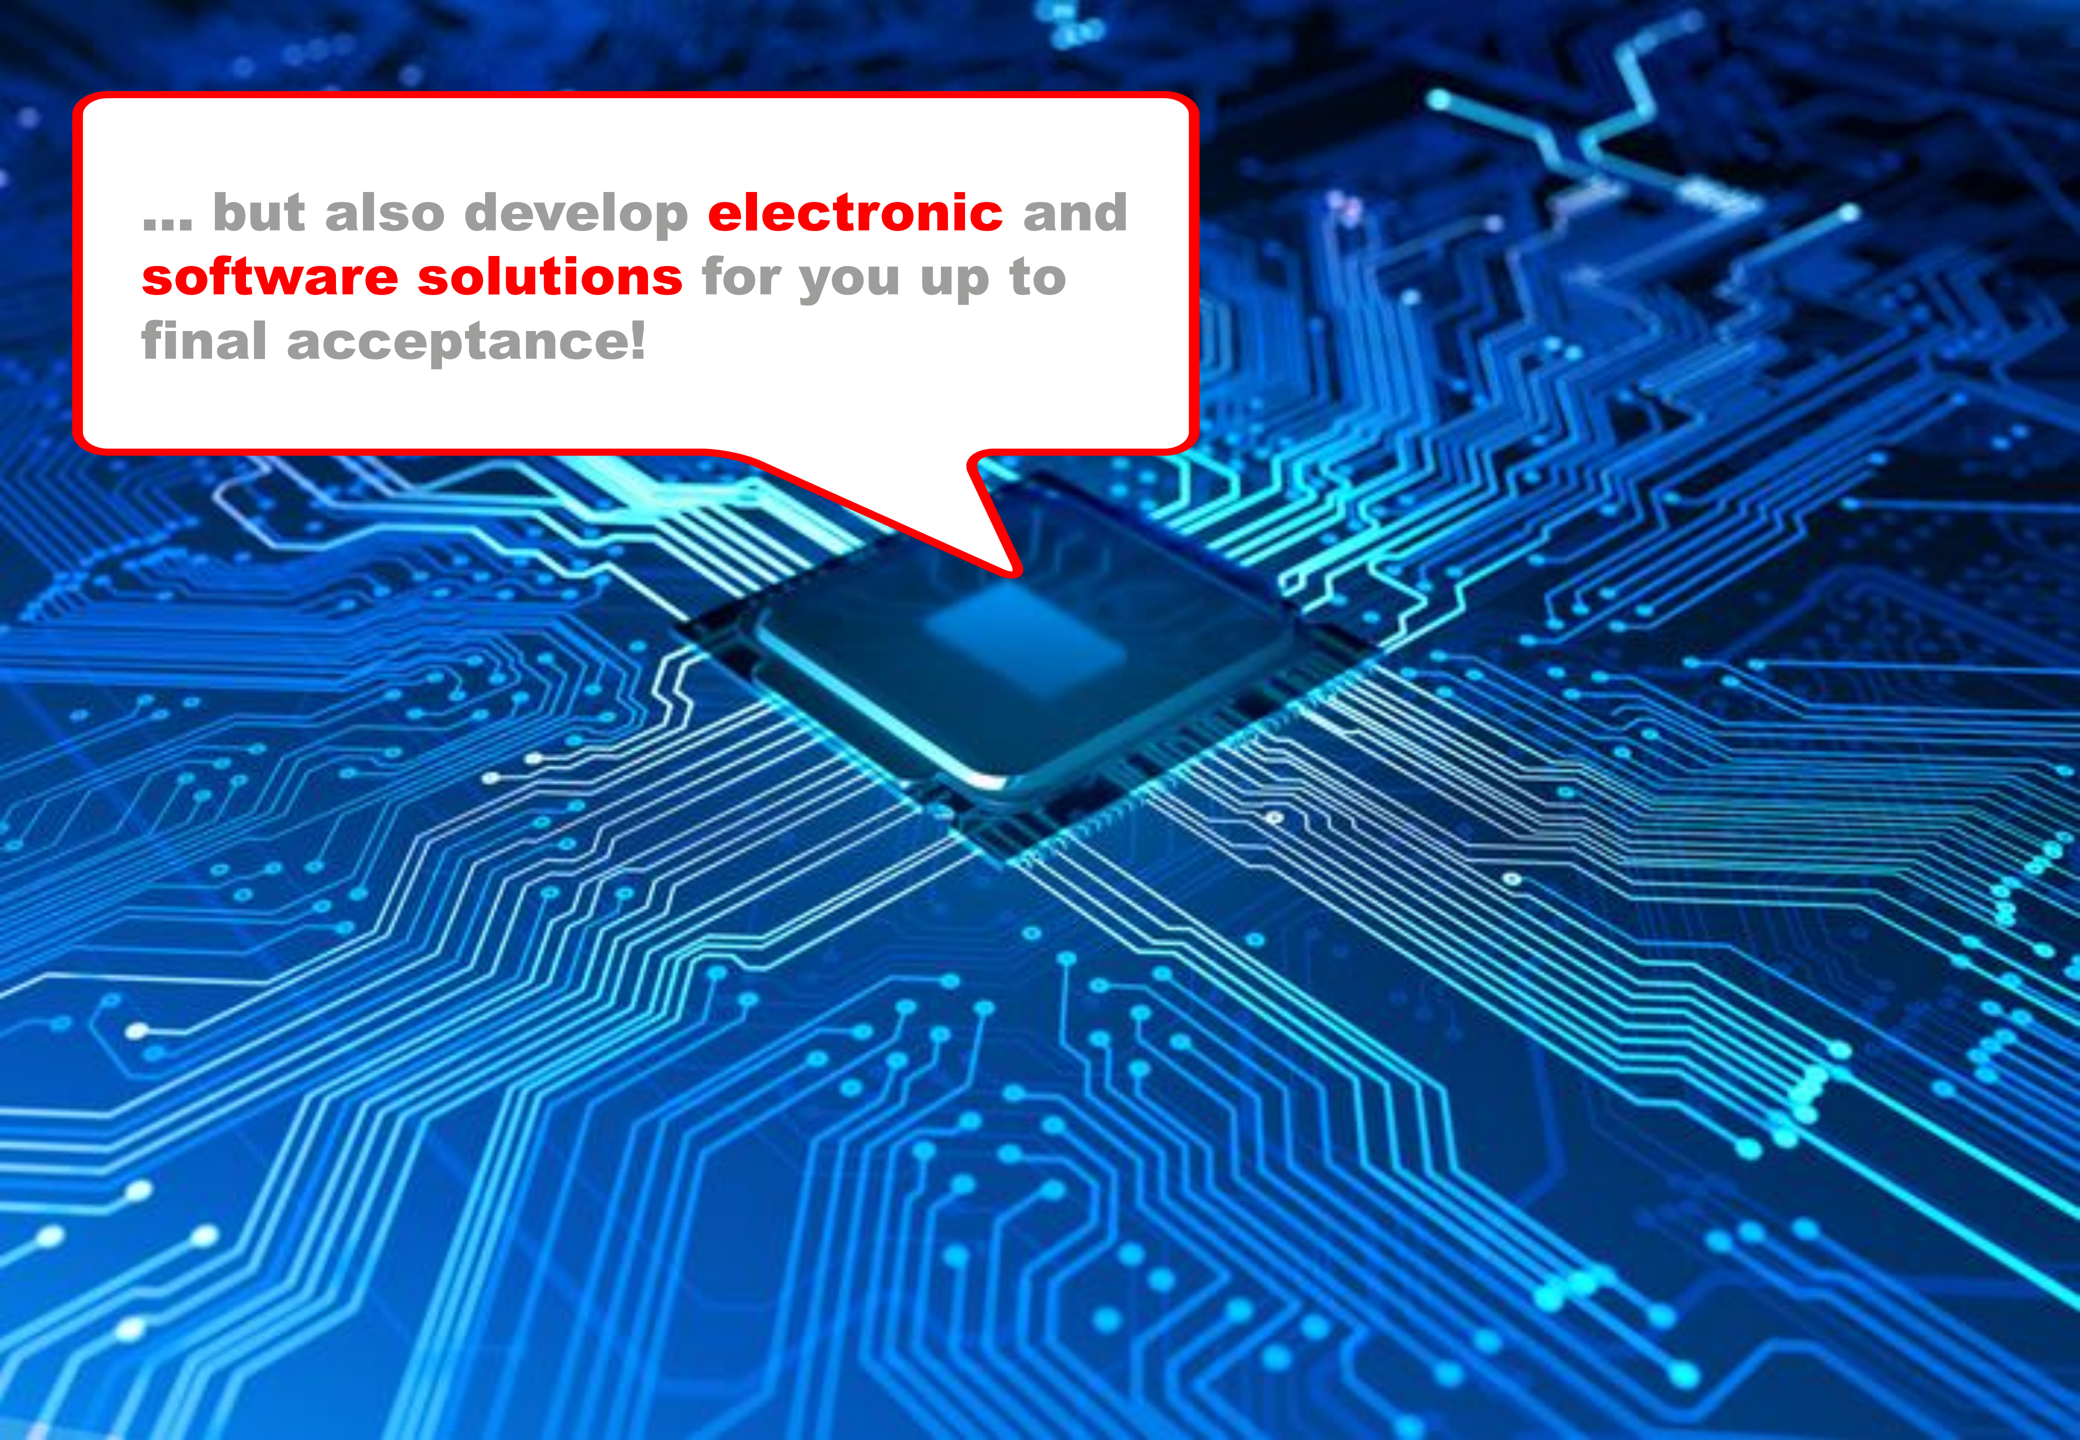
Product development from one source!

From idea to product.

Productdesign &
Mechanical Engineering

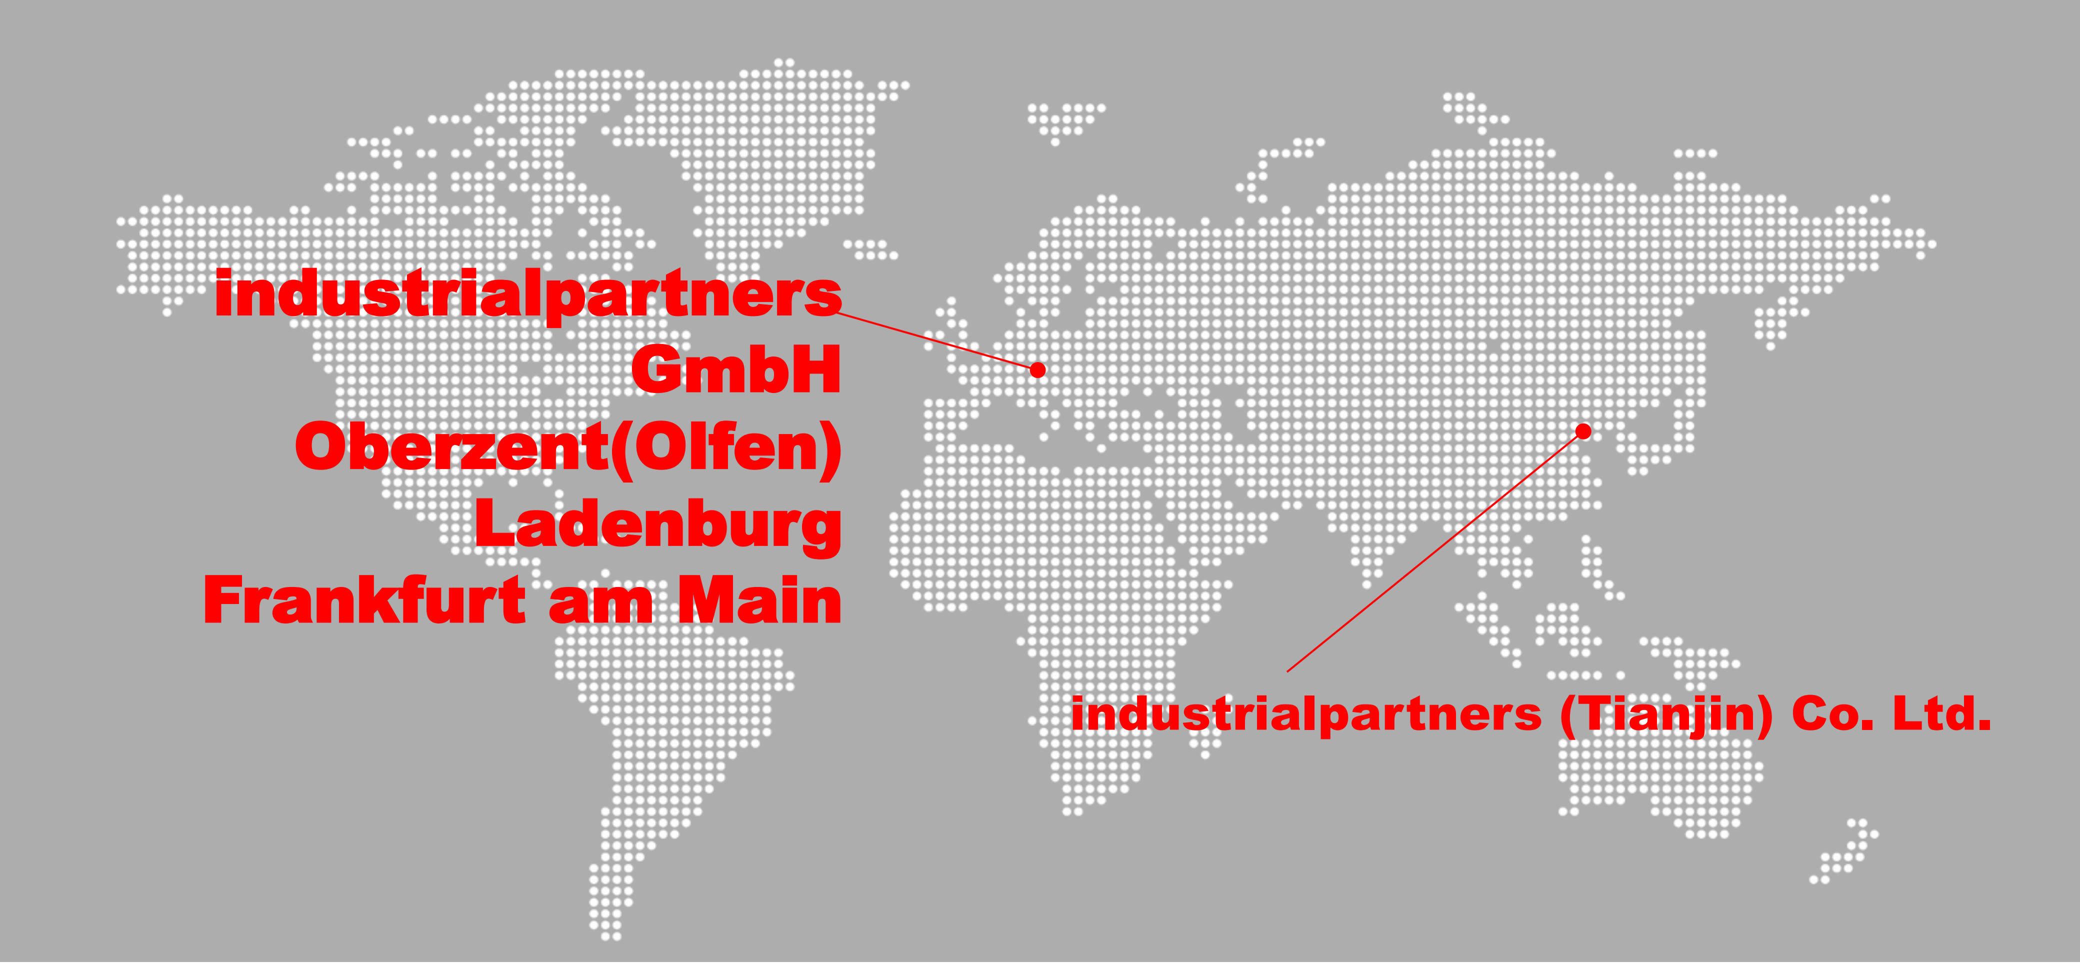
Are you looking for an engineering office that accompanies your project from the first idea to the realization and supervises the industrialization for you?

We offer you a cooperation with **20 creative minds** who not only design and construct production-oriented solutions for you ...



... but also develop electronic and software solutions for you up to final acceptance!

With our offices in Germany and China, we support suppliers on site and thus ensure effective quality control!



industrialpartners
GmbH
Oberzent(Olfen)
Ladenburg
Frankfurt am Main
industrialpartners (Tianjin) Co. Ltd.

The company you want to work with should of course have experience from different **industrial sectors**!

We have them!

Automation

Rail Technology

Lightning

Office

Dental

Electronics

Household

Heating Tech

Industrial

Communication

Medical

Measuring Tech

Sanitary

Environment

Packaging

Mobility

In our development projects, we consider the **manufacturing processes** that we consider most **suitable** for production!

This ranges from **injection moulding** and **aluminum die casting** to **deep drawing** or the production of our designs from sheet metal steel.

We develop parts, part groups, mechatronic systems or complete products.

For this purpose, we provide interdisciplinary teams of product designers, engineers and programmers and also develop your electronics and software!

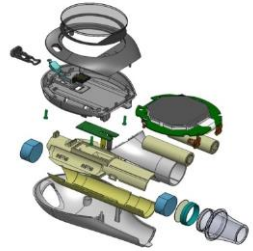
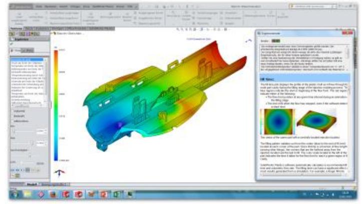
Project Example





FMEA-Workshop
Materialscan
Specification sheet
Ergonomic studies

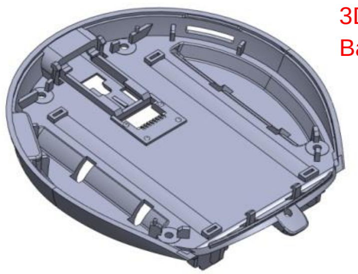
Revision Design Phase
3D-CAD-Data
Elaborated technical solutions
Case structure
Assembling process
Premodels

Design engineering
3D-CAD-Data
Functional models
Rapid prototypes
Assembling process
Mold-Flow-Analysis

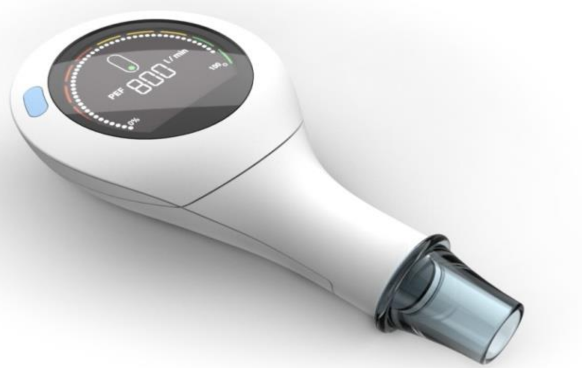
Engineering and
production of moulds
produced with
aluminium inserts

› 1. Concept › 2. Industrialdesign › 3. Design Engineering › 4. Prototyping › 5. Moulds › 6. Production

Preliminary Design Phase
3D-CAD-Data
Basic technical solutions



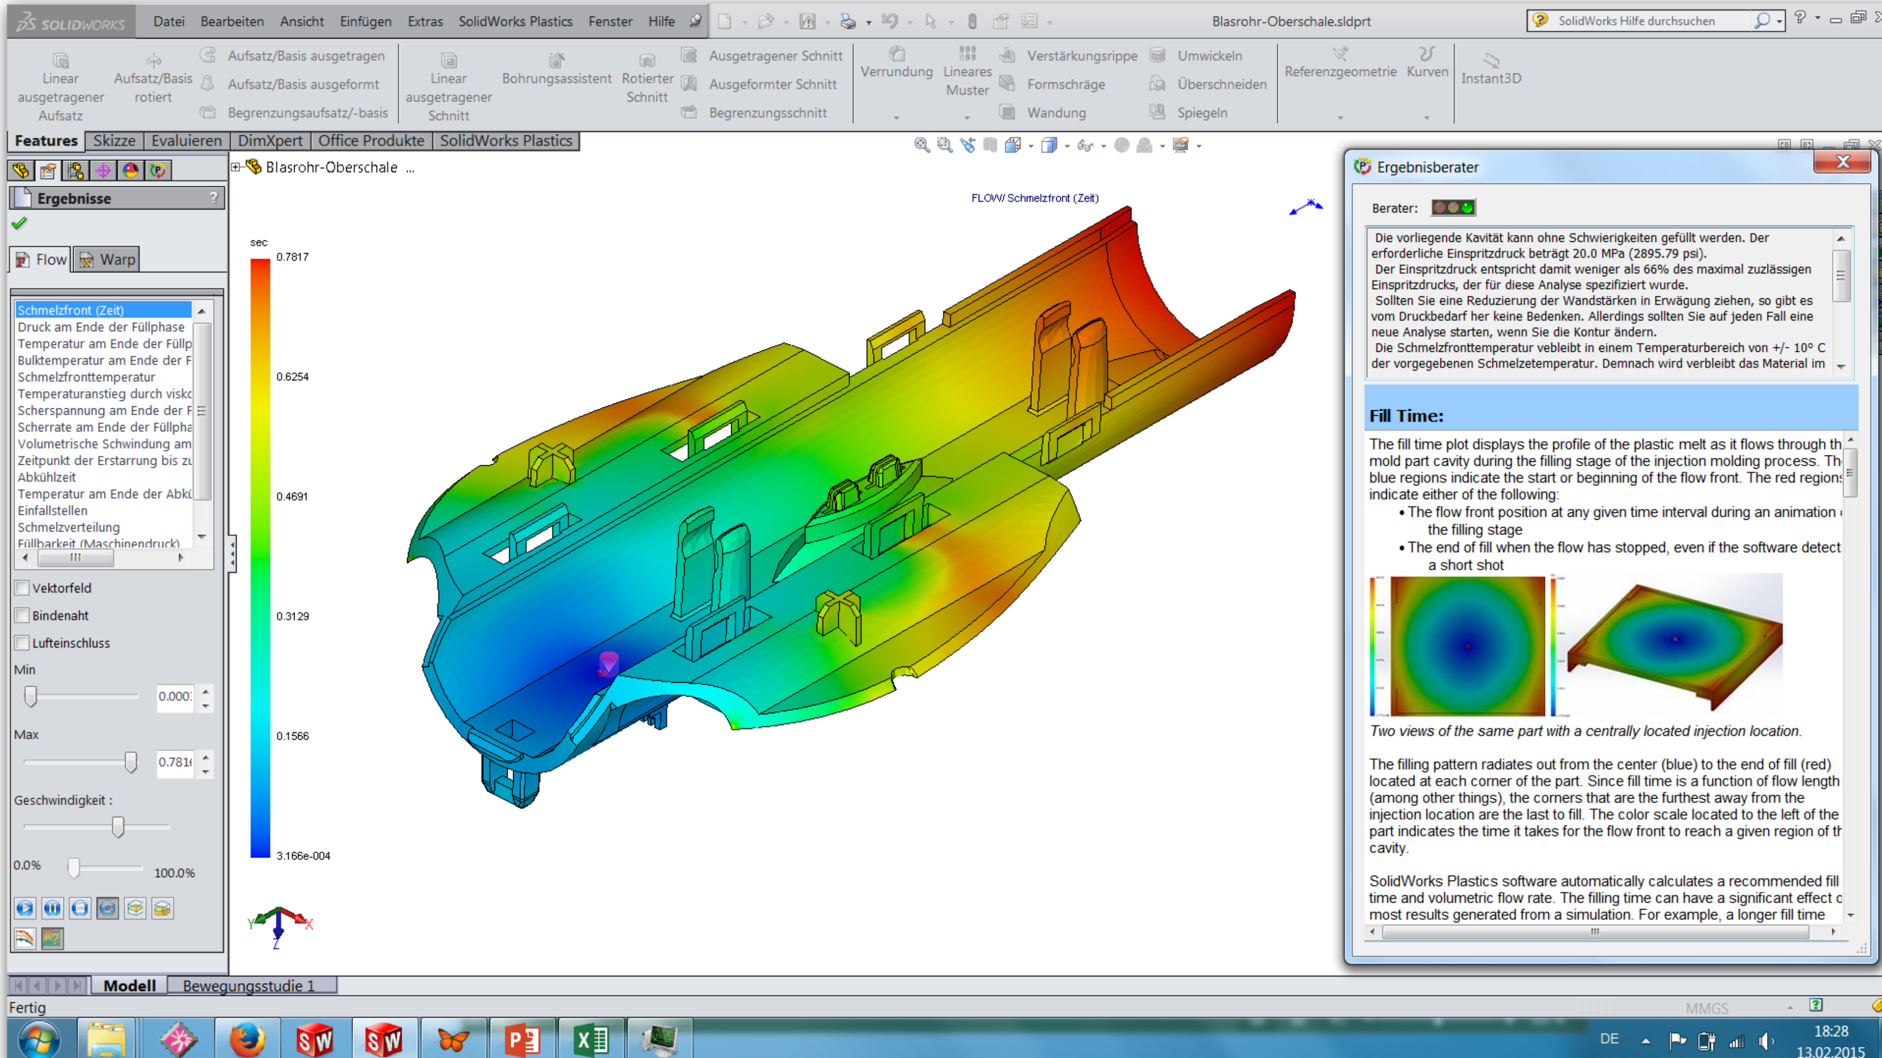
1:1 Scale prototype



Production of the
complete part sets
in plastic

Project schedule for Sendsor GmbH, Germany

Development of a aeroplethysmograph



Developed by **industrialpartners**

Developed by industrialpartners

Developed by **industrialpartners**

You have a project and search for a **solution**?

Workshop & Concept Development 3.750,00 €

- ▶ Productdesign
- ▶ Mechanic
- ▶ Electronik
- ▶ Software
- ▶ Production
- ▶ Complete

We do this in a sprint!
